It has been noticed by the basketball squad and others interested in the successful career of the Lone Oak Purple Flash that the team is not receiving the backing that it deserves.

This is true of both student and community fans. Many times when informed that the Flash will oppose a certain team in the next gome a fan will remark, "Well that team has beaten so-and-so, and they will undoubtedly beat Lone Oak." Now is that the proper way in which one should boost the team of his school?

If the Flash is booked to play a team that has literally "chewed up and spit out" every team that it has met, a good way to break ino their long sring of victories is to pep our boys up with encouragement. We should let them know that we are back of them to the same degree when they are playing some one-room graded school and we are when they are playing the strongest team in the running.

I am sure that if the persons who make such remarks as those to which I have referred would only think they would not make them. The spirit tests over the lesson every of the team can be broken quicker by telling them that another team is sure. Things are looking bright too to beat them than in any other way.

On the other hand, we do not want to cause our boys to be overconfident. This may prove as disastrous as discouraging them by criticizing them too severely.

So come on students, boosters, and everybody who has an interest in Oak High School, let's boost the Purple Flash through all the tours and make a name for our school that we will always remember This can be fone through cooperation.

emselves and le were unable sour det s doeses and morr t of another method of observing St. Valentine's

The Day in and there to was rozmerly the custom there for the younger set on Valentine's Day to draw names to see who would be their "Valentine" throughout the coming year. Many of these developed into betrothals. Today we have two kinds of Valentines. One conveys a sentimental

message while others send one of a satrical nature, ridiculing a person for a peculiar idea or merely poking fun at a close friend. This latter class of Valentine greetings is the one that seldom has the correct name of the sender signed to it.

Valentine greetings, when sent in the right manner may be just as appropriate as a birthday or a Christmas greeting. They may express the me thing. We send Christmas greetings in order to let our friends know that we are wishing them a good time.

Valentine are sent to one to let one's friends know that there is a desire for the continuance of friendship. Even those Valentines that are Juanita Miller, Almyra Craig, Loral meant to ridicule may do more good than the other kind. One may receive a Valentine greeting ridiculing some habit of his and probably the impression that the ridicule leaves on that individual's mind will cause that person to think about that particular idea and eventually the habit will be broken.

This is often the case, but perhaps just as often the ridicule is taken in the wrong way. In this manner the harm of satirical Valentines comes. The greeting may be sent entirely through fun and with absolutely no ill will toward the receiver and then be taken in the opposite way.

So it must be admitted that the sending of a satirical Valentine greeting is all right if carried out in the right manner. The question of deciding to whom to send this kind of greeting is left entirely to the discretion of the sender.

LITTLE THINGS

How many of us think about the importance of the little things in life There are so many of these small favors or deeds to which we pay absolutely no attention but go on completely ignoring their presence and importance.

One of the important ways to show courtesy is the uttering of two simple words, "Thank you." Too many times hard feeling and a poor opinion is started merely because a person does something for another and that person is too careless to thank him for it. No matter how small and insignificant a deed is, it is important enough to deserve a little appreciation, and appreciation will go a long way and find a tender spot in any heart. The appreciation of these small things will always be remembered when some one whom you have helped sees you in need of help.

Another form of courtesy that perhaps should have been discussed beto the sight as they came three nights a week and sometimes at day fore that of using a "thank you," is the thoughtfulness of doing these little deeds. Many times the seemingly smallest and most insignificant deed will have more influence in winning a friend than many other bigger thigs. A kind deed done in the right way may save the person for whom it is done hours of misery and pain. Always think of the other fellow Larry's engagement to Jahala Howard. How her throat ached! Still every week she and Larry flew to and try to be of benefit to him. gether. But with each turn of the

And last but not least, let us think of apologizing. This is probably the most difficult thing a person has ever tried to do. When you have

done something that seems harmless to you you may think that everyone else thinks the same, but that is not true in exery case. In many instances the thing you do may be absolutely harmless but when viewed by others it may appear entirely different. Probably as many hard feelings are caused in this way as in any other, because the person who has offended, in many cases, has no idea what the other is offended about. But if he should happen to find out, the thing to do then is to apologize immediately and make things right. The same things are true about things we say about something or somebody. They may be said in the best of humor and with the best of intentions, but still if others misunderstand they might as well

be said in the opposite way. Let us try to think before we act, and ask ourselves the question, "Will hat I am about to do or say hurt anyone?" If we can answer this in mative with a clear conscience then we have nothing to fear, but be much better to leave it unsaid or undone.

PARAPHRASE

The heart that once through sorrow went The soul of sorrow shed. Now beats as gay as any heart

As if that sorrow were fled. So sleeps the sorrow of former days So that lover's thrill is o'er. My heart that once beat fast for love Now feels that love no more.

No more to pleasures, gay and bright This heart of mine does swell. The moon alone, that shines at nite That tales of love can tell. Thus love, now so seldom wakes The only pain it gives Is when some heart unworthy breaks
