## Welcome New Students

Each and every year, Lone Oak has the privilege of welcoming new students from other schools.

New subjects have been offered to the student body which makes us believe Lone Oak is making more progress year by year.

Our teachers are qualified and in high standings and we are very proud of them.

Mr. Robinson will be more than glad to help you with any problems, large or small, to help you get adjusted.

Our student body, I believe is one of the friendliest groups of boys and girls any where around this county or state.

I am sure if you cooperate with our school by giving a nice smile and a friendly hello, you will make a big hit here and become one of "us."

If you need any help just give us a signal, and the Journalism class and student body will do everything we can to help you, the new students of Lone Oak High School.

## New Courses

We are fortunate at Lone Oak this year to have some new courses. Our curriculum at Lone Oak is growing each year. The new courses are: Advanced Government, taught by Mr. Blackburn. Another new course is Physics taught by Mr. Douglas. Something new for all of the high school girls who wish to take it, is P. E., taught by Miss Bishop. This year it was made possible for the music teacher, Mr. Hurley, to work with small music groups. It is hard for us to get very many new courses, since we would not have a place to hold the classes.

## Three Rooms Moved to Church

We have had three class rooms moved to the Baptist Church. They are two third grades and one second grade. Mrs. Record teaches the second grade and that has moved and Miss Peeples and Mrs. Winchester teaches the third grades and that has moved.

They come from the church to the school by bus for lunch. They were moved to the church for lack of room at the school. The children have only a small place to play but they seem to be satisfied at the church.

There is not as much noise at the church and this gives the children a better chance to study. The teachers will not be as annoyed at the church as they would be at the school because of the high school changing classes.

## New School Sign

The Junior Class of 1957-58 erected an ornamental iron sign honoring their Class and School. It is located in front of the high school building for everyone to see. The sign was purchased with the money earned from the Junior Magazine Drive. Last year a new record was set by the Junior class. We are hoping this year's Junior Class will set a new record as their campaign will end the week of the twenty-first.

## Repairs Made to Play Ground Equipment

We are proud that during our summer vacation the play ground equipment has been repaired. The damaged swings have all been repaired and painted. The monkey bars and seesaws also have been repaired and painted. We the students of Lone Oak are proud of this.

## No Parking on Grounds

by David Coram

"Everyone park away from the back." That is a rule for this year. By this rule being carried out, it will give the grades a place to play and not be in danger by speeding automobiles. Let's all remember "SAFETY" is the safest way. If we at school would remember that we are not the only one's here on the school grounds, we can all make this school a safer place to be during our school year. So all the students and teachers remember to park away from the back and give the grade students a chance to play and build healthy minds and bodies.

Mister Goheen — Advisor

## Respect For Our Teachers

by Kenneth Gross

Do you respect your teachers? Do you show your respect? If not, you are missing something.

When you enter a classroom be quiet or at least don't talk out loud. Also, if possible, always have your lessons in on time, correctly. After all you know our teachers do not come to school to be helped but to help us.

## SCHOOL FAIR

On October the third the McCracken County Schools will hold their second county school fair, at Carson Park.

Each department is going to have an exhibit and for the small children there will be a Pet Show.

Each school in the county will be represented and each one will have interesting things to show. The Agriculture Departments will have a live stock show and their crops will be exhibited. The Business Departments and the English Departments will be well represented. The Journalism Departments are planning a special treat for you.

The Home Economics Department and the Music Department will present their program on the second, at the Lone Oak Gym. There will be a style show and the Music Department will present their version of many songs.

We plan to make this the biggest and best fair ever held.

Everyone is invited to attend. Bring your mother and father, show them a treat they'll never forget. "COME TO THE COUNTY SCHOOL FAIR!"

## Jr. Magazine Drive

The Juniors started their magazine drive September 10, at 9 o'clock. The team captains, Gale Kelley and Jack Gilbert were chosen to represent the teams, Daisy Mae and Little Abner. They are selling magazines from the Colliers Company.

The magazine drive is headed by Mrs. Goheen and Mr. Hall. The drive is to entertain the Seniors at the annual Junior-Senior Banquet.

This being the biggest class in school, they plan to go over their goal of \$3,000. Good Luck Juniors.

### EYE GLASSES AND YOU

A soft hairdo does wonders for you. If you like bangs, they must be short, uneven, with a casually brushed effect. Avoid center parts . . . off center lines do the most for you.

Don't slip your glasses into your purse when you go to the beauty salon. Wear them while your hair is styled, so your hairdresser can analyze the changes your particular choice of glasses make in your features. Then those skilled hands can place your part, your waves, your wispy curls in just the right places to flatter the shape of your face and the shape of your "specs".
